Commitment to Quality

A Heritage of Quality for Over 150 Years

Gottfried Jetter

Aesculap, the world's largest manufacturer of surgical instruments, has been crafting high-performance instruments in Tuttlingen, Germany since 1867. Named for the Greek god of healing, Asklepios, the company was founded by Gottfried Jetter, the first person ever to produce standardized surgical instruments.

Today, Aesculap employs nearly 12,000 people in our modern, Aesculap-owned and operated factories around the world, including 3,500 people in the Tuttlingen facilities which house over 450,000 square feet of production area.

PERFORMANCE QUALITY Surgical Instruments Made by Aesculap

For every surgical instrument *Made by Aesculap* we demand not just "Quality", but *PERFORMANCE QUALITY.* A surgical instrument with PERFORMANCE QUALITY is meticulously crafted to have a solid feel and to perform like an extension of the surgeon's own hand. To deliver PERFORMANCE QUALITY worthy of the Aesculap name, we start with the finest, raw materials including highly pure stainless steel which is purchased and tested in Tuttlingen. Our master craftsmen, who are among the most rigorously trained and experienced in the industry, then follow the strictest standards when crafting each instrument, including:

- **State-of-the-art German-made equipment** which is used in every Aesculap-owned factory worldwide
- **Aesculap hand-crafted, Gold-Plated Master QC Standards** that assure pattern consistency
- **Strict Aesculap manufacturing guidelines,** including tight tolerances more strict than International Quality Standards, for precision and reliability from first use and throughout the lifetime of each instrument

As our Mission states, we are "passionately committed to providing high quality, innovative products and services to all surgical disciplines."

Aesculap Product Range:

- Surgical instruments for all disciplines
- Sterile containers
- Endoscopy
- Neuroendoscopy
- Aneurysm clips
- Power systems
- KAIRison® Bone Punches
- Orthopaedics
- Per-procedure programs
- Repair services
- Consulting services
- Dura substitutes
- Hydrocephalus

AESCULAP Aicon®

Sterile Container System

USER-FRIENDLY CLOSURE SYSTEM

Single-motion latch with large lifting handle designed to improve lid handling during aseptic presentation.

STERILE SET SECURITY

Tamper-evident lock is visible from the front and top of the container and lays flat to protect it during transportation and handling.

EASY ACCESS TO INFORMATION

QR code provides product information and Instructions for Use (IFU) by simply scanning the code with a mobile device camera.

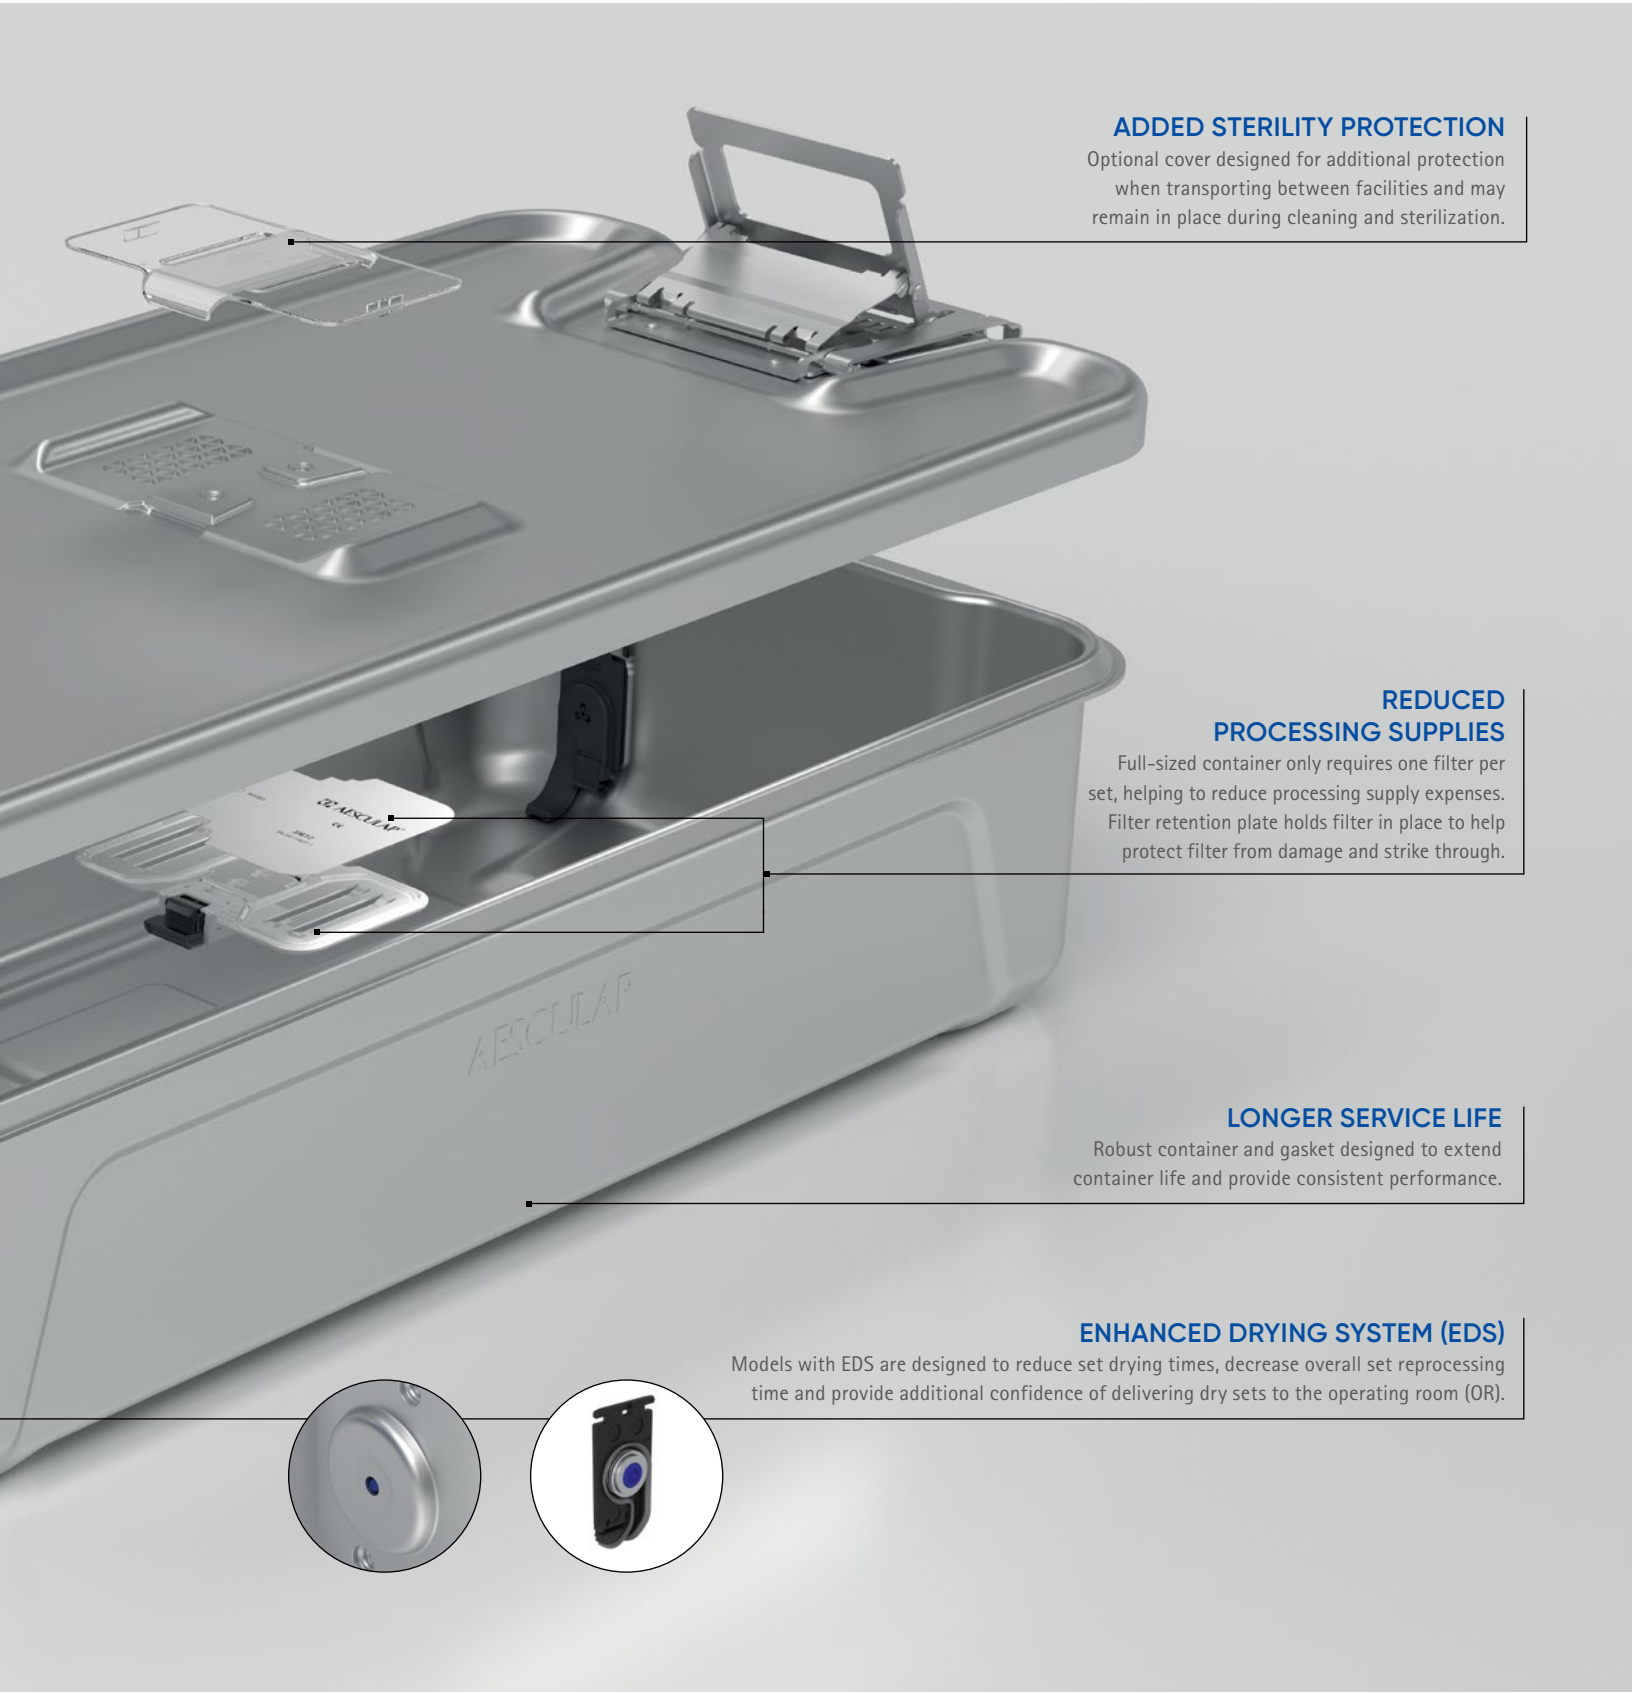
IMPROVED SET IDENTIFICATION

Interchangeable color faceplates and tags allow for more than 100 set identification options designed to easily identify specialties. Retaining brackets secure additional information.

ERGONOMIC CONTAINER HANDLING

Integrated handle evenly distributes weight through whole hand to help reduce fatigue and designed for greater access to rear handle during lifting.

reddot winner 2020



ADDED STERILITY PROTECTION

Optional cover designed for additional protection when transporting between facilities and may remain in place during cleaning and sterilization.

REDUCED PROCESSING SUPPLIES

Full-sized container only requires one filter per set, helping to reduce processing supply expenses. Filter retention plate holds filter in place to help protect filter from damage and strike through.

LONGER SERVICE LIFE

Robust container and gasket designed to extend container life and provide consistent performance.

ENHANCED DRYING SYSTEM (EDS)

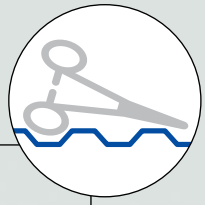
Models with EDS are designed to reduce set drying times, decrease overall set reprocessing time and provide additional confidence of delivering dry sets to the operating room (OR).

AESCULAP Aicon®

Sterile Container System

INSTRUMENT SECURITY

Non-slipping wavelike basket bottom designed to hold instruments in place. Ring instruments stay upright during the packaging and transportation process to help protect instruments and make them more accessible.

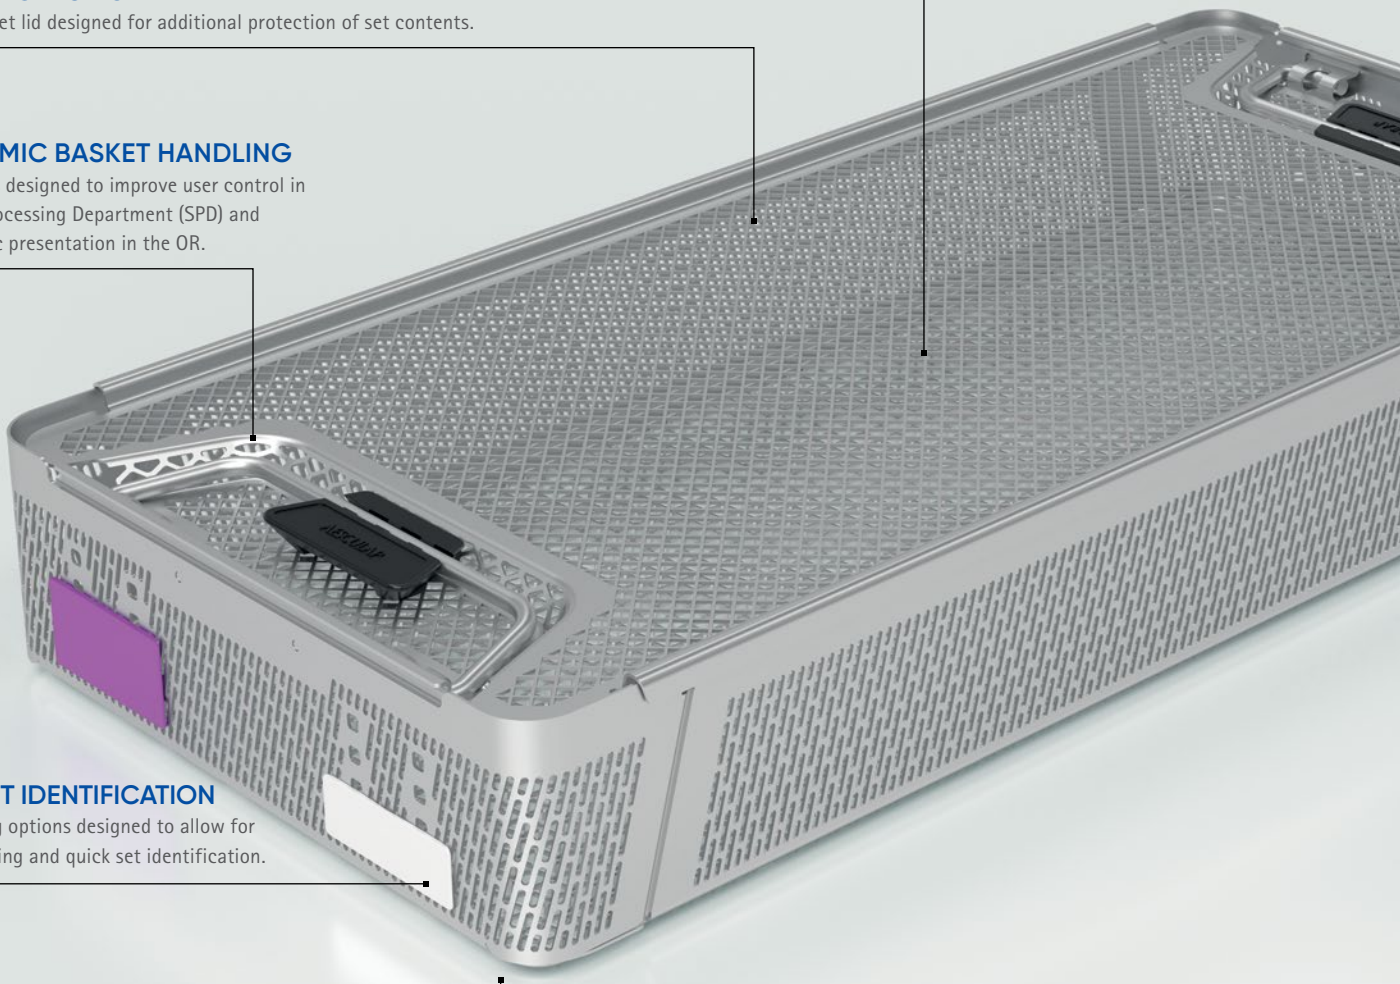


ADDED PROTECTION

Optional basket lid designed for additional protection of set contents.

ERGONOMIC BASKET HANDLING

Large handles designed to improve user control in the Sterile Processing Department (SPD) and during aseptic presentation in the OR.



QUICK SET IDENTIFICATION

Numerous tag options designed to allow for easy set labeling and quick set identification.

BASKET FLEXIBILITY

Smooth and rounded design allows basket to be used with containers or single-use wrap.

BASKET AND CONTAINER SYNCHRONIZATION

Enables identical tags to be used on the basket and removable container faceplate to streamline the reprocessing cycle and help improve set identification.

SPACE-SAVING BASKET DESIGN

Baskets nest together securely, with or without basket lid, to allow stacking in containers and during storage.

SterilContainer™

System

BENEFITS

- Extensive range of container sizes and heights designed to meet all your instrument sets requirements
- Lightweight aluminum construction helps you meet AAMI 25lbs weight recommendation
- 90° Stop handle designed to protect staff from finger injuries during handling
- Single motion latch designed to secure containers quickly to help reduce time and hassle in the SPD and OR
- One step retention plate with audible "click" designed to secure filter to simplify operations and help improve processing time
- Designed to containerize pre-configured instrument sets including orthopaedic, spine and specialty medical devices
- Solid bottom configured with either Lid Option "VALIDATED for IUSS"

  As pictured - Validation with Primeline Pro Lid Reusable Filter for IUSS

SterilContainer™

System Processing Supplies

Tamper Evident Locks

Tamper Evident Locks seal containers for safety and security. Indicator dots change color when exposed to sterilizing conditions. Quantities of 1,000 each.

	Item No.	Color	Description	Qty.	PreVac Steam	PreVac IUSS	Gravity	EtO	Low Temp
	**US900**	Blue	No Indicator	1,000/pk	X	X	X	X	X
	**US905**	Green	Change[1] Yellow to Orange	1,000/pk				X	
	**US906**	Orange	Change[1] Blue to Brown	1,000/pk	X	X	X		
	**US910**	Pink	Change[1] Magenta to Blue	1,000/pk					X[2]
	**US399**	Yellow	Change[1] Blue to Brown	1,000/pk		X			

1. After sterilization, the external indicator should change from the original indicator color to the recommended post sterilization indicator color. The recommended post sterilization indicator color may not be evenly shaded but should be shades of the proper processed color to indicate exposure to sterilant.
2. Locks must be stored in a controlled room temperature, away from alkaline chemicals, acids and sources of light.

Indicator Cards

	Item No.	Description	Qty.	PreVac Steam	PreVac IUSS	Gravity	EtO	Low Temp

Instrument Organization System

Organization and protection of surgical instruments

Aesculap's **I**nstrument **O**rganization **S**ystem is an advanced system of organizing, storing and protecting your instrument set during transportation and sterilization.

- Instruments organized with the **I**nstrument **O**rganization **S**ystem are designed to guard against damage from instrument-on-instrument impact during transportation
- Instrument protection can help reduce the cost of repairs and set downtime
- Instrument protection can help increase instrument life and reduce replacement cost

In the O.R., a set organized with Aesculap's **I**nstrument **O**rganization **S**ystem is designed to help cases flow more efficiently by allowing staff to:

- Quickly identify and select instruments
- Work directly from the organized set
- Replace used instruments into the slots making final instrument count easier

During sterilization, Aesculap's **I**nstrument **O**rganization **S**ystem is designed for:

- Better sterilant flow between instruments
- Consistent sterilization

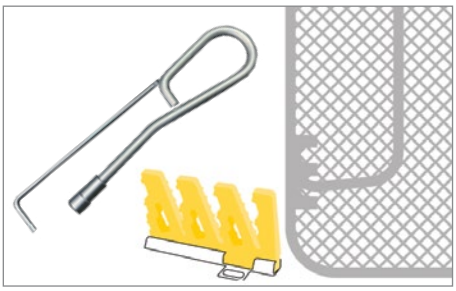
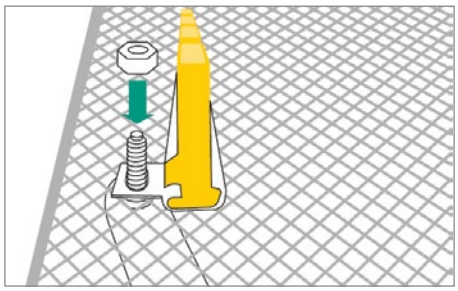
Mounting Instructions

Mounting A for instrument racks to be fixed with screws

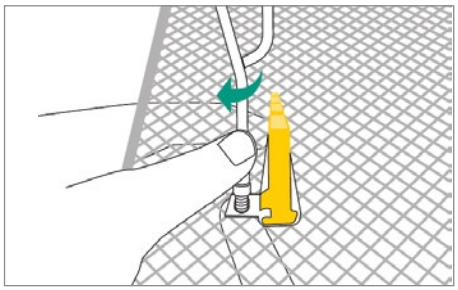


MATERIALS REQUIRED:

- GB459R Toolkit as required
- Instrument holder such as JG341
- AESCULAP baskets (e.g. AESCULAP Aicon® JJ series or JF series)



Place the instrument holder in the required position in the AESCULAP basket, making sure that the holder's fixation lug fits onto the basket's lattice-work correctly. Push the screw through from below and affix it with the nut from above.



Hold the screw with your finger, put on the socket wrench with the other hand and tighten the nut.

***For all "Type A" mounting items, see Hardware and Tool Kit options on page 43.**

Please contact your Aesculap Sales Representative or Customer Resource at (800) 282-9000 for a free consultation in organizing any of your surgical assets in the Aesculap SterilContainer™ System

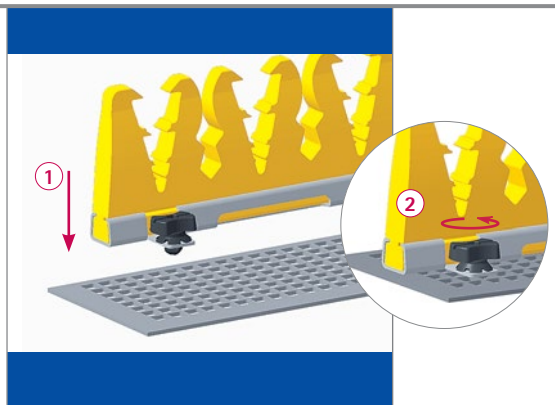
Instrument Organization System

Mounting Type A

For instrument racks with fixation pin:



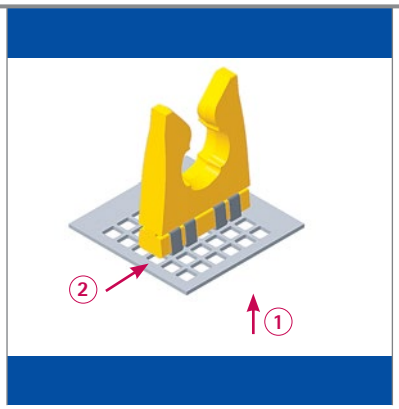
Mounting Type A designed for easy top down assembly of the majority of SterilContainer™ Storage System silicone dividers

① Insert fixation pin JG300 in the rack. Install rack with fixation pin in the tray.

② Push the fixation pin down, then turn it by 45° using JG302 - Allen screwdriver.

Mounting Type B

For silicone holders with fixation clamps:



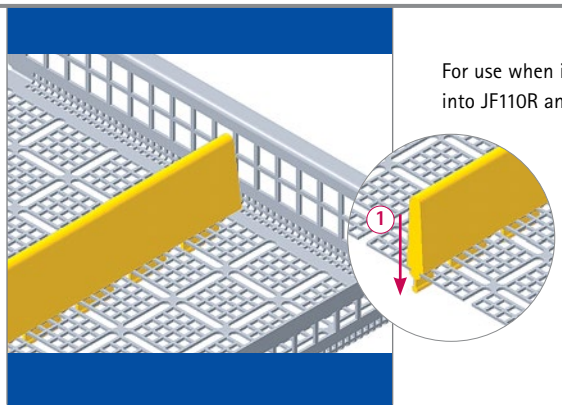
For use with JG330, JG331 and JG332 only

① Press fixation clamp JG301R into tray from below.

② Slide in silicone holder sideways.

Mounting Type C

For silicone racks in tray inserts:



For use when inserting JG310 into JF110R and JF210R

① Pull the silicone rack through the longitudinal slots in the tray.

**Mounting Type C can only be used with JF110R and JF210R baskets*

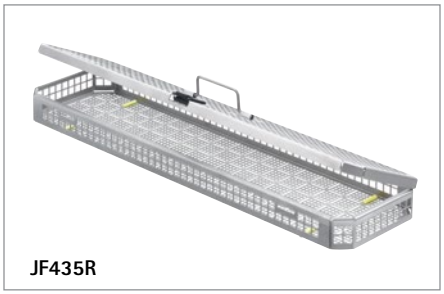
JF436R – Single Scope Tray
(fits inside 1/4 size JN088)
10¾" x 3⅜" x 1⅝"
273 x 84 x 41 mm



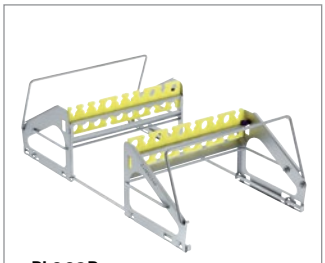
JF435R – Scope Basket with Lid
(fits into Extra-Long Mini Container)
20" x 5¼" x 1¾"
508 x 133 x 44 mm

All dimensions are length x width x height

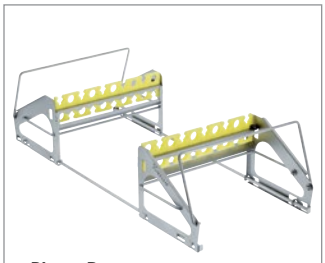
Endorack Storage System for MIS Instruments

PL960R
Endorack Full-Size,
Perforated basket and
silicone mesh mat, fits into
8" height, Full-Size SterilContainer™

PL961R
Endorack Extra-Long,
Perforated basket and silicone mesh mat, for instruments with shaft-length up to 42 cm, fits into JN445 and also holds da Vinci SP Robotic Arms



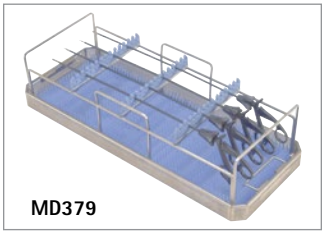
PL963R
Endorack Full-Size,
fits into 8" height, Full-Size SterilContainer



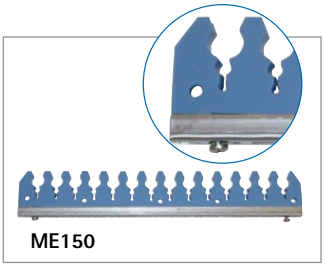
PL964R
Endorack Extra-Long, fits into 8" height, Extra-Long SterilContainer

PL960206
Silicone Component
for PL960R, PL961R, PL963R and PL964R

Endoscopy Rack



Holds 14 Instruments



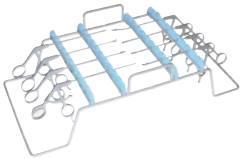
ME150 – Full-Size Multi-Keyhole Bracket (screws included)
9¼" x ⅜" x 1½"
236 x 9 x 38 mm

	Full-Size (JN/JK444)	Extra-Long (JN445)
Rack Only	**MD377**	**MD375**
Rack with Basket	**MD378** MD377 Rack, PL950215 Mat, JF222R Basket	**MD379** MD375 Rack, JF933 Mat, JF232R Basket

General Accessories

Instrument Storage Racks

Racks



MD365

MD365 – Arthroscopy Rack
Holds 20 arthroscopy punches
Fits into a full-size, 8" deep SterilContainer™
Also will fit with Solid Bottom 6" JK442, with JF222R basket to hold additionall instrumentation associated with punches
19⅜" x 9⅜" x 4½"
490 x 238 x 114 mm

MD937

MD937 – Osteotome Rack for Half-Size Container
Holds 12 straight and curved osteotomes (example: MB640 and MB650)
10" x 9⅞" x 2¾"
254 x 250 x 70 mm

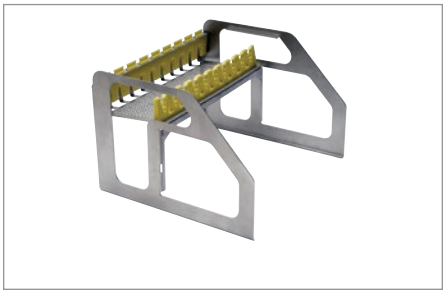
MD928

MD928 – Cobb Curette Rack
Holds 10 Cobb curettes (example: FK581 - FK599R)
9" x 2½" x 14"
230 x 65 x 355 mm

MD929

MD929 – Bruns Curette Rack
Holds 10 Bruns curettes (example: MD473 - MD490)
9" x 2½" x 11½"
230 x 65 x 295 mm

Storage Frame for Bone Punches



JF120R holds ten instruments.
9½" x 8⅞" x 6⅜"

Instrument Set Example

JF120R can be used in the JN744, 8" three-quarter-size container. It is designed to be used in a full-size container for longer instruments.

Lifting Platforms
