

As the end of the year approaches, we would like to make you aware of a number of exceptional values (both clinical and financial) that have been recently added to the FSS/DAPA contracts. TrillaMed has proudly partnered with Aesculap to offer an extensive portfolio of surgical, cardiovascular, neurosurgical, and laparoscopic products, which are known worldwide for their exceptional quality, reliability and innovation. Serving the surgical needs of medical professionals for 100 years, Aesculap is world-known for its high-quality precision and simultaneous ability to provide incredible value to its customers.

There are five product categories which deserve a serious look as we approach the end of the fiscal year.

### Sterilization Containers

- **Environmentally Friendly** – Reusable system reduces environmental impact and minimizes waste stream
- **Low Operating Expense Per Use** – Long service life and low-cost disposables reduce Sterile Processing Department expenses by as much as 80%
- **Superior Care & Handling** – Safe, stackable, easy-to-handle package system improves processing time and reduces the potential for staff injury
- **Proven Clinical Efficacy** – Containers form a rigid barrier impervious to punctures and tears which maintains the quality of the instruments and eliminates the risk of contamination due to sterility breaches
- **Breadth of Line** – Dental size through extra-long

### Endoscopic Instruments

- **Customizable Instruments** – Modular design allows for surgeons to customize instruments to their own liking
- **Ergonomic Handling** – Handles are designed for optimal surgeon comfort
- **Ease of Cleaning** – Instruments can be disassembled into easily cleanable components which improves efficiency
- **Cost Savings** – High quality instrument every time with the need to replace only the less expensive disposables

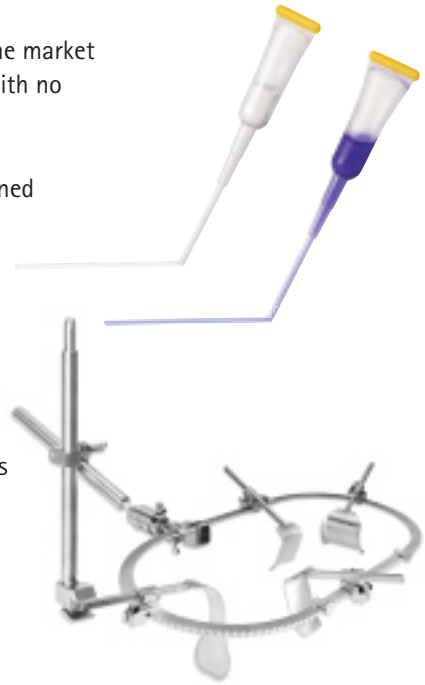

### Reusable Trocars

- **Simple** – modular construction provides easy assembly/disassembly ensuring optimal cleaning after use
- **Light weight** – optimal weight distribution balances the trocars when inserted in the abdomen
- **Cost effective** – dramatically reduces cost and waste per case compared to fully disposable trocars

## Histoacryl®

- **Exceptional Strength** – Highest bond strength of all surgical adhesives on the market
- **Outstanding Cosmetic Results** – Available in both dyed and clear versions with no unsightly residue
- **Rapid Closure** – Single layer application that sets in 30 seconds
- **High Yield** – 98% dispensable volume – No clogging or drying out when opened
- **Cost Effective** – A single vial can replace multiple vials/pens of the competitive product

## Universal Ring Retractor System

- **Meets Needs in Operating Room** – Entry to the surgical site from numerous directions is possible with an extensive range of rings, retractor blades and components
- **Wide Bariatric Offering** – Offers larger rings and bars as well as longer posts and wider base on blades to support heavy tissue in bariatric procedures
- **Radiolucent** – Aluminum malleable blades offer a radiolucent option
- **Tilting/Rotating Blade Clamp** – Easily adjust angle of blades

## About TrillaMed:

TrillaMed, LLC is a Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in supplying high-quality medical materiel to the Department of Defense, the Department of Veterans Affairs, and Other Government Agencies. Our dual mission is to hire veterans and to exceed industry standards in delivering quality, value and service to our customers. We team with healthcare industry leaders such as Aesculap, Inc. and B. Braun Medical to accomplish our mission.

Our team sells superior quality products and offers competitive pricing and world class customer service. TrillaMed's logistical expertise incorporates the latest in security and EDI technology; plus RFID labeling/tracking and world wide delivery.

When Government agencies purchase through TrillaMed, LLC they achieve efficient FSS/DAPA acquisition through their Prime Vendors and move toward achieving their "Supplier Diversity" goals.
