Commitment to Quality

A Heritage of Quality for 150 Years

Gottfried Jetter

Aesculap, the world's largest manufacturer of surgical instruments, has been crafting high performance instruments in Tuttlingen, Germany since 1867. Named

for the Greek god of healing, Asklepios, the company was founded by Gottfried Jetter, the first person ever to produce standardized surgical instruments.

Today, Aesculap employs nearly 12,000 people in our modern, Aesculap-owned and operated factories around the world, including 3,500 people in the Tuttlingen facilities which house over 450,000 square feet of production area.

PERFORMANCE QUALITY Surgical Instruments Made by Aesculap

For every surgical instrument *Made by Aesculap* we demand not just "Quality", but *PERFORMANCE QUALITY*. A surgical instrument with PERFORMANCE QUALITY is meticulously crafted to have a solid feel and to perform like an extension of the surgeon's own hand. To deliver PERFORMANCE QUALITY worthy of the Aesculap name, we start with the finest, raw materials including highly pure stainless steel which is purchased and tested in Tuttlingen. Our master craftsmen, who are among the most rigorously trained and experienced in the industry, then follow the strictest standards when crafting each instrument, including:

- **State-of-the-art German-made equipment** which is used in every Aesculap-owned factory worldwide
- **Aesculap hand-crafted, Gold-Plated Master QC Standards** that assure pattern consistency
- **Strict Aesculap manufacturing guidelines**, including tight tolerances more strict than International Quality Standards, for precision and reliability from first use and throughout the lifetime of each instrument

As our Mission states, we are "passionately committed to providing high quality, innovative products and services to all surgical disciplines."

Aesculap Product Range:

- Surgical instruments for all disciplines
- Sterile containers
- Endoscopy
- Neuroendoscopy
- Aneurysm clips
- Power systems
- Pneumatic KAIRisons
- Spinal implants
- Orthopaedics
- Per-procedure programs
- Repair services
- Consulting services
- Dura substitutes
- Hydrocephalus

AESCULAP Aicon®

Sterile Container System

USER-FRIENDLY CLOSURE SYSTEM

Single-motion latch with large lifting handle designed to improve lid handling during aseptic presentation.

STERILE SET SECURITY

Tamper-evident lock is visible from the front and top of the container and lays flat to protect it during transportation and handling.

EASY ACCESS TO INFORMATION

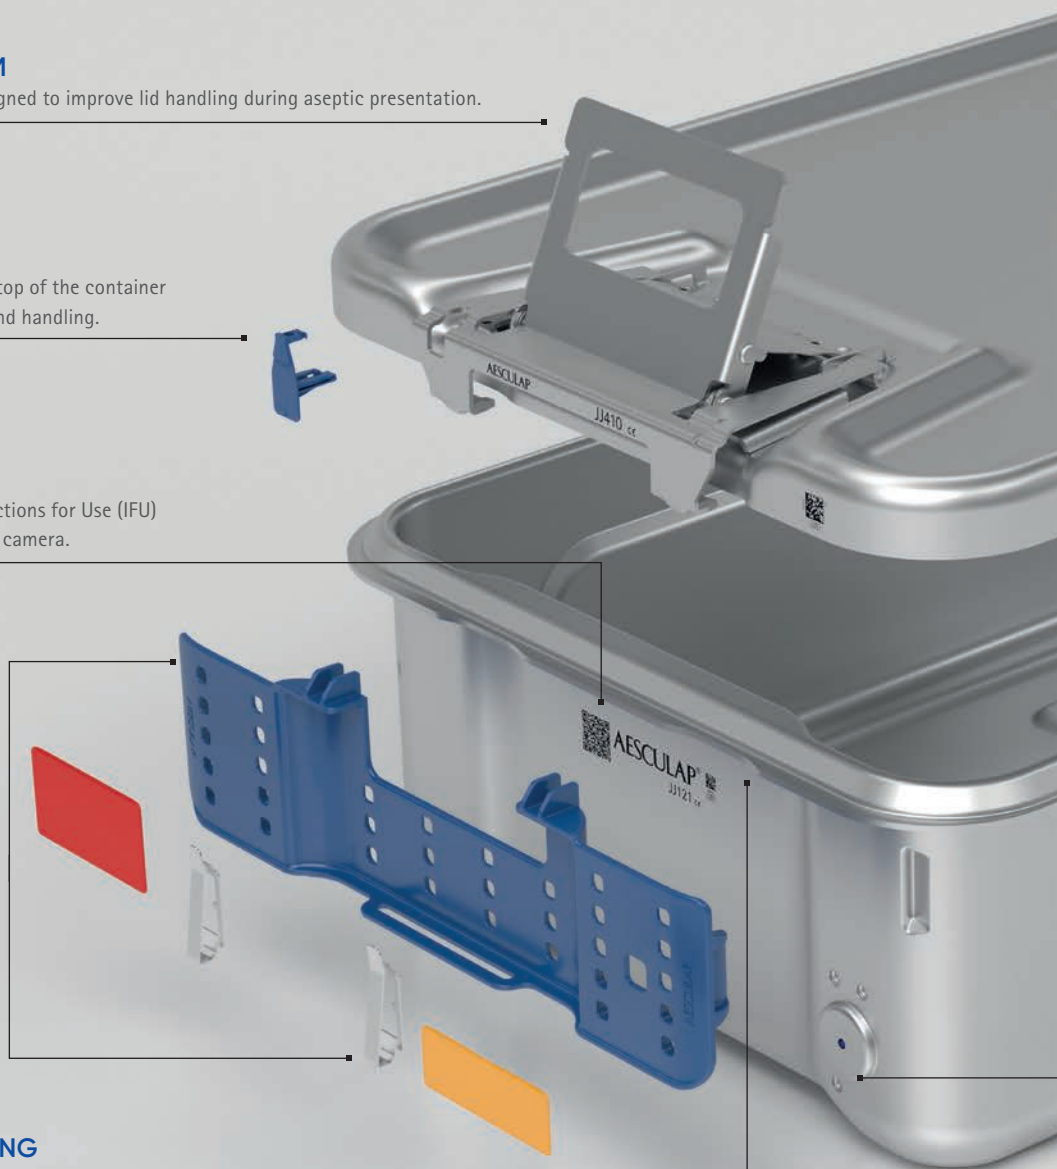

QR code provides product information and Instructions for Use (IFU) by simply scanning the code with a mobile device camera.

IMPROVED SET IDENTIFICATION

Interchangeable color faceplates and tags allow for more than 100 set identification options designed to easily identify specialties. Retaining brackets secure additional information.

ERGONOMIC CONTAINER HANDLING

Integrated handle evenly distributes weight through whole hand to help reduce fatigue and designed for greater access to rear handle during lifting.

reddot winner 2020

ADDED STERILITY PROTECTION

Optional cover designed for additional protection when transporting between facilities and may remain in place during cleaning and sterilization.

REDUCED PROCESSING SUPPLIES

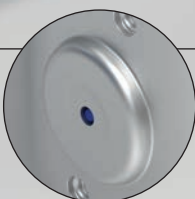

Full-sized container only requires one filter per set, helping to reduce processing supply expenses. Filter retention plate holds filter in place to help protect filter from damage and strike through.

LONGER SERVICE LIFE

Robust container and gasket designed to extend container life and provide consistent performance.

ENHANCED DRYING SYSTEM (EDS)

Models with EDS are designed to reduce set drying times, decrease overall set reprocessing time and provide additional confidence of delivering dry sets to the operating room.

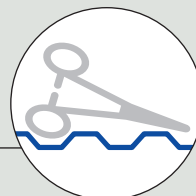

AESCULAP Aicon®

Sterile Container System

INSTRUMENT SECURITY

Non-slipping wavelike basket bottom designed to hold instruments in place. Ring instruments stay upright during the packaging and transportation process to help protect instruments and make them more accessible.

ADDED PROTECTION

Optional basket lid designed for additional protection of set contents.

ERGONOMIC BASKET HANDLING

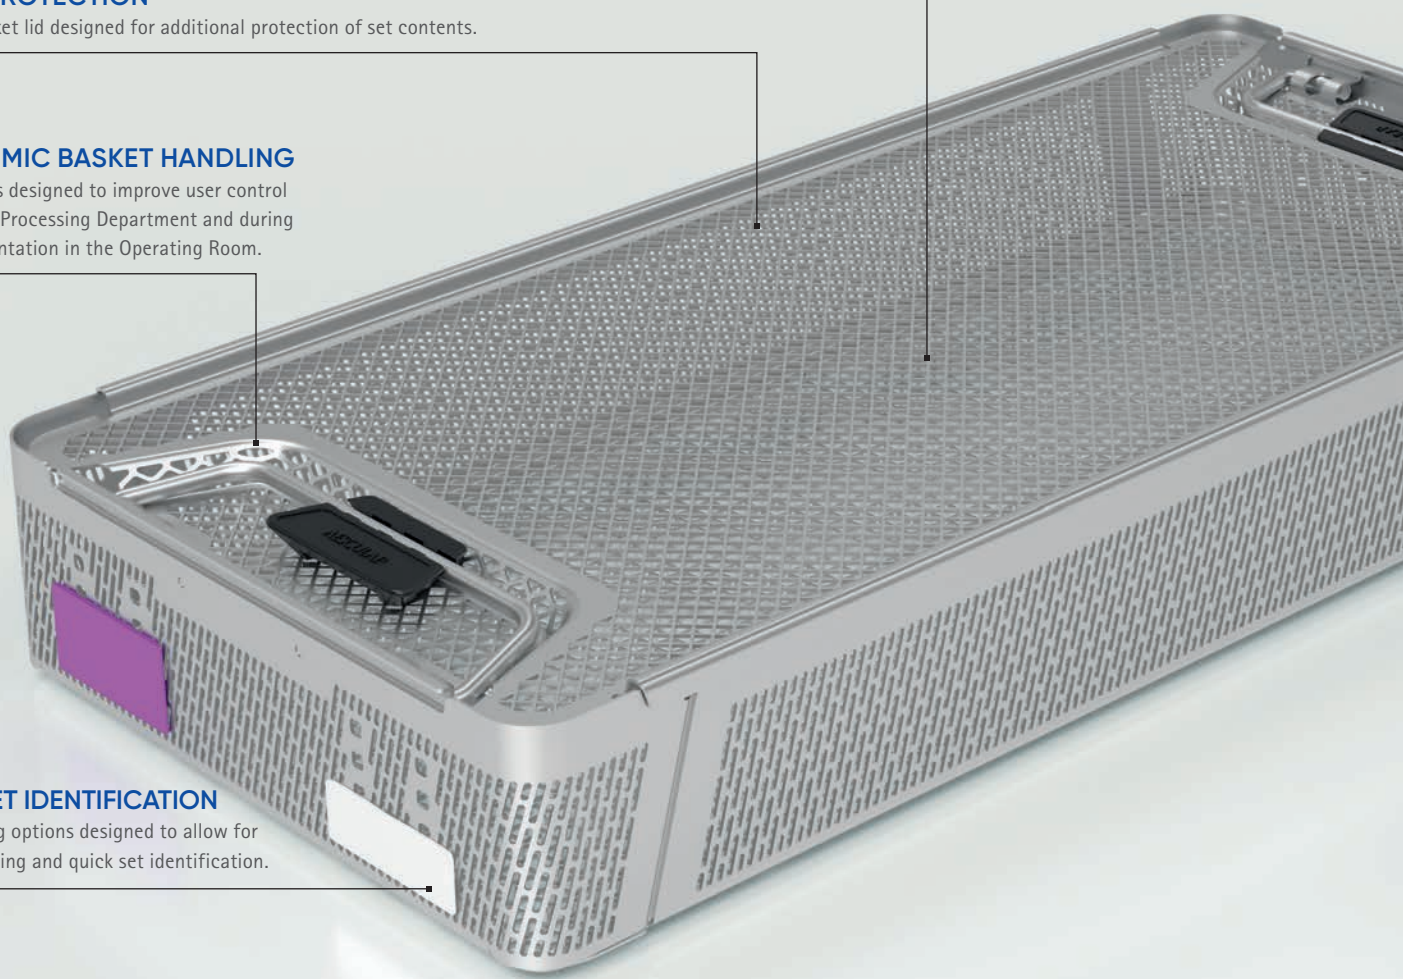

Large handles designed to improve user control in the Sterile Processing Department and during aseptic presentation in the Operating Room.

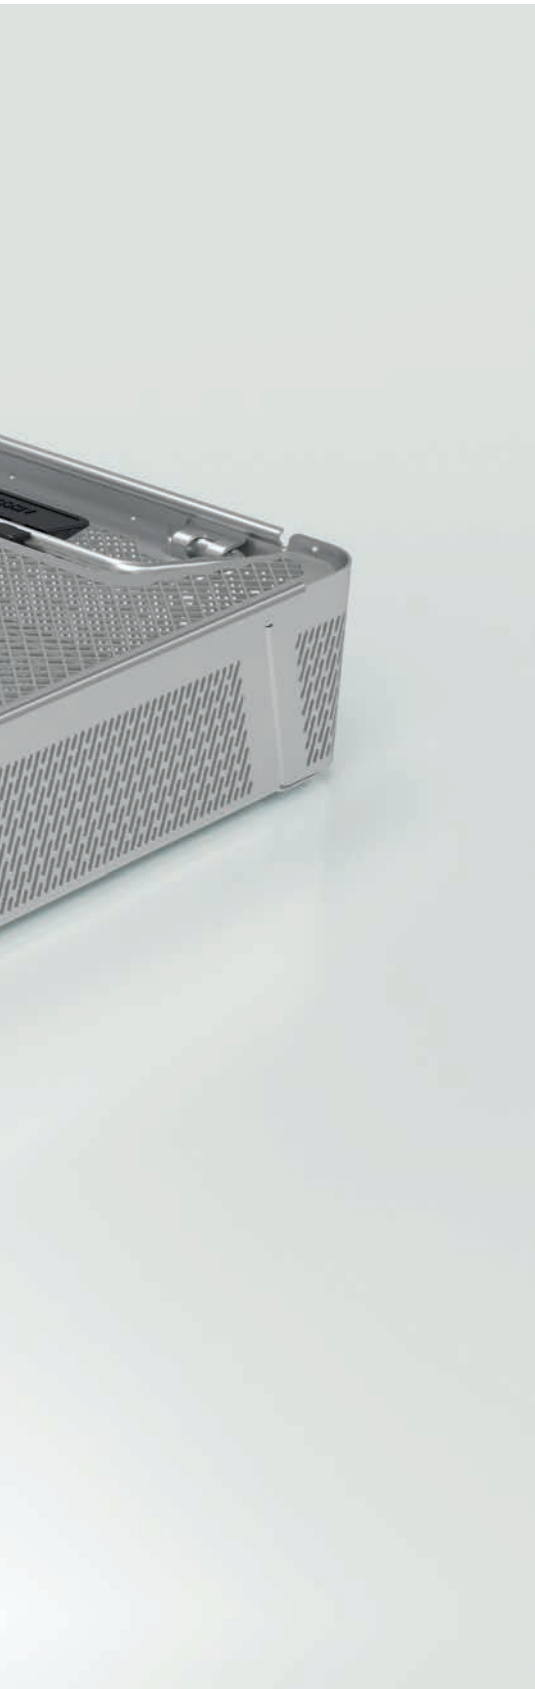

QUICK SET IDENTIFICATION

Numerous tag options designed to allow for easy set labeling and quick set identification.

BASKET FLEXIBILITY

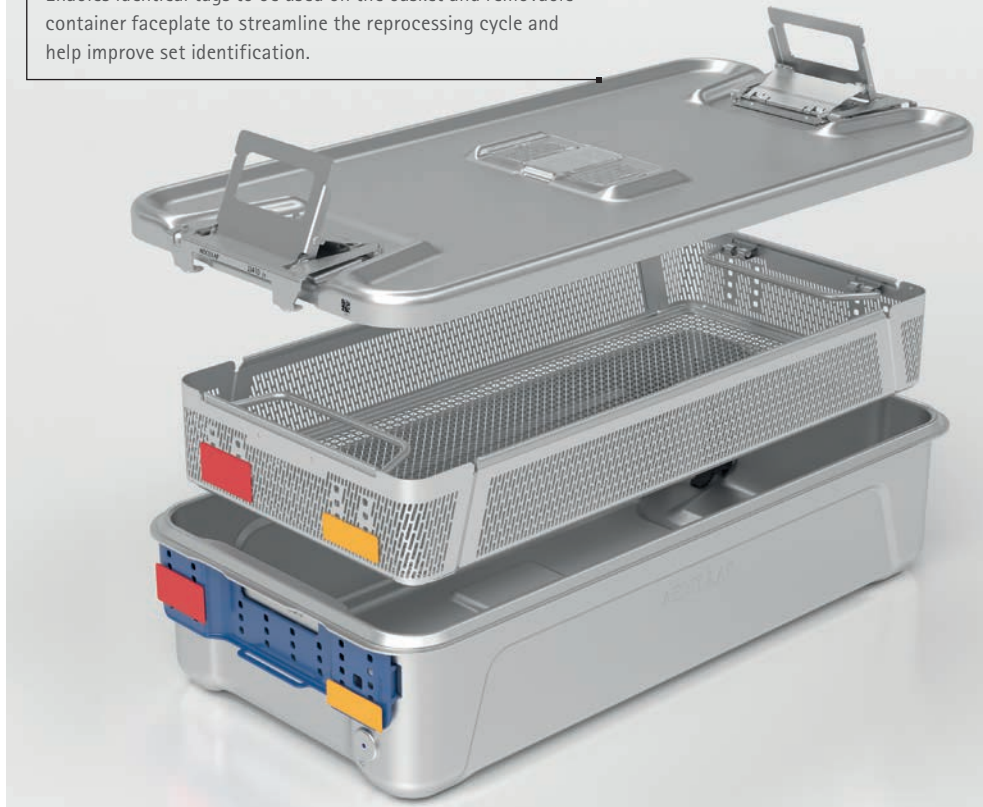

Smooth and rounded design allows basket to be used with containers or single-use wrap.

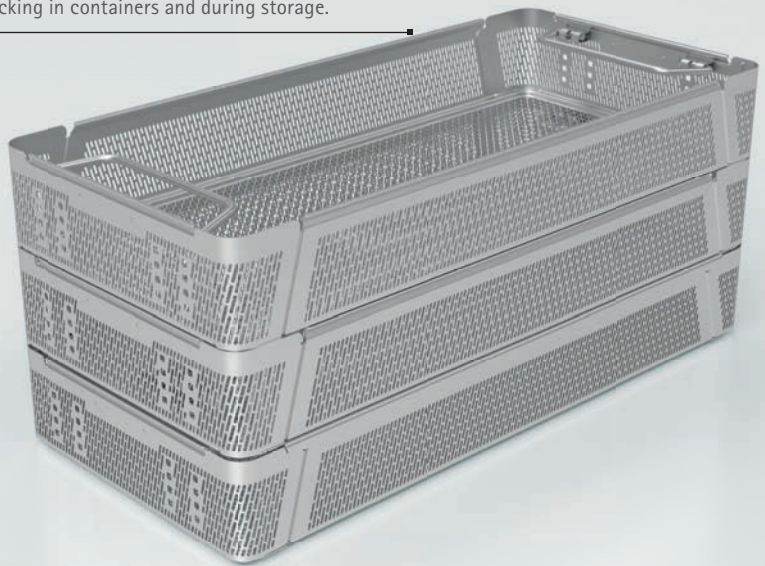

BASKET AND CONTAINER SYNCHRONIZATION

Enables identical tags to be used on the basket and removable container faceplate to streamline the reprocessing cycle and help improve set identification.

SPACE-SAVING BASKET DESIGN

Baskets nest together securely, with or without basket lid, to allow stacking in containers and during storage.

BENEFITS

- Extensive range of container sizes and heights designed to meet all your instrument sets requirements
- Lightweight aluminum construction helps you meet AAMI 25lbs weight recommendation
- 90° Stop handle designed to protect staff from finger injuries during handling
- Single motion latch designed to secure containers quickly to help reduce time and hassle in the SPD and OR
- One step retention plate with audible "click" designed to secure filter to simplify operations and help improve processing time
- Able to containerize pre-configured instrument sets including orthopaedic, spine and specialty medical devices
- Solid bottom configured with either Lid Option "VALIDATED for IUSS"

As pictured - Validation with Primeline Pro Lid Reusable Filter for IUSS

SterilContainer™

System Processing Supplies

Tamper Evident Locks

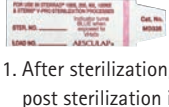

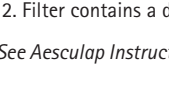

Tamper Evident Locks Seal containers for safety and security. Indicator dots change color when exposed to sterilizing conditions. Quantities of 1000 each.

	Item No.	Color	Description	Qty.	PreVac Steam	PreVac IUSS	Gravity	EtO	Low Temp
	US900	Blue	No Indicator	1,000/pk	X	X	X	X	X
	US905	Green	Change ¹ Yellow to Orange	1,000/pk				X	
	US906	Orange	Change ¹ Blue to Brown	1,000/pk	X	X	X		
	US910	Pink	Change ¹ Magenta to Blue	1,000/pk					X ²
	US399	Yellow	Change ¹ Blue to Brown	1,000/pk		X			

1. After sterilization, the external indicator should change from the original indicator color to the recommended post sterilization indicator color. The recommended post sterilization indicator color may not be evenly shaded but should be shades of the proper processed color to indicate exposure to sterilant.

2. Locks must be stored in a controlled room temperature, away from alkaline chemicals, acids and sources of light.

Indicator Cards

	Item No.	Description	Qty.	PreVac Steam	PreVac IUSS	Gravity	EtO	Low Temp
	MD345	Communication Card No Indicator	250/pk	X	X	X	X	
	MD346	Change ^{1,2} Brown in Steam Change ^{1,2} Orange in EtO	250/pk	X	X	X	X	
	MD399	Change ¹ Brown in Steam	250/pk		X			
	MD876	Change ¹ Brown in Steam for Quarter and Mini Size	250/pk	X		X	X	
	MD334	Change ¹ Blue	250/pk					X
	MD335	Change ¹ Blue for JM188 with JM174	250/pk					X

1. After sterilization, the external indicator should change from the original indicator color to the recommended post sterilization indicator color. The recommended post sterilization indicator color may not be evenly shaded but should be shades of the proper processed color to indicate exposure to sterilant.

2. Filter contains a dual indicator dot, which changes to brown in steam, and to orange in EtO.

US945	Magenta	US945

US901

ID Tag, 2 3/8" x 1/2"

US917

Small Snap-on ID Tag, 2 3/8" x 1/2"

US945

Large Snap-on ID Tag, 2 3/8" x 1 1/8"

To order this tag without clips add the suffix "200" behind the item #'s (example US935200 is the red small tag only)

Not recommended for use in vapor hydrogen peroxide sterilization due to color fading.

ID Tag and Snap-on ID Tags US901, US917 and US945 are specific for the vapor hydrogen peroxide sterilization cycles.

Instrument Organization System

Organization and protection of surgical instruments

Aesculap's Instrument Organization System is an advanced system of organizing, storing and protecting your instrument set during transportation and sterilization.

- Instruments organized with the Instrument Organization System are designed to guard against damage from instrument-on-instrument impact during transportation
- Instrument protection can help reduce the cost of repairs and set downtime
- Instrument protection can help increase instrument life and reduces replacement cost

In the O.R., a set organized with Aesculap's Instrument Organization System is designed to help cases flow more efficiently by allowing staff to:

- Quickly identify and select instruments
- Work directly from the organized set
- Replace used instruments into the slots making final instrument count easier

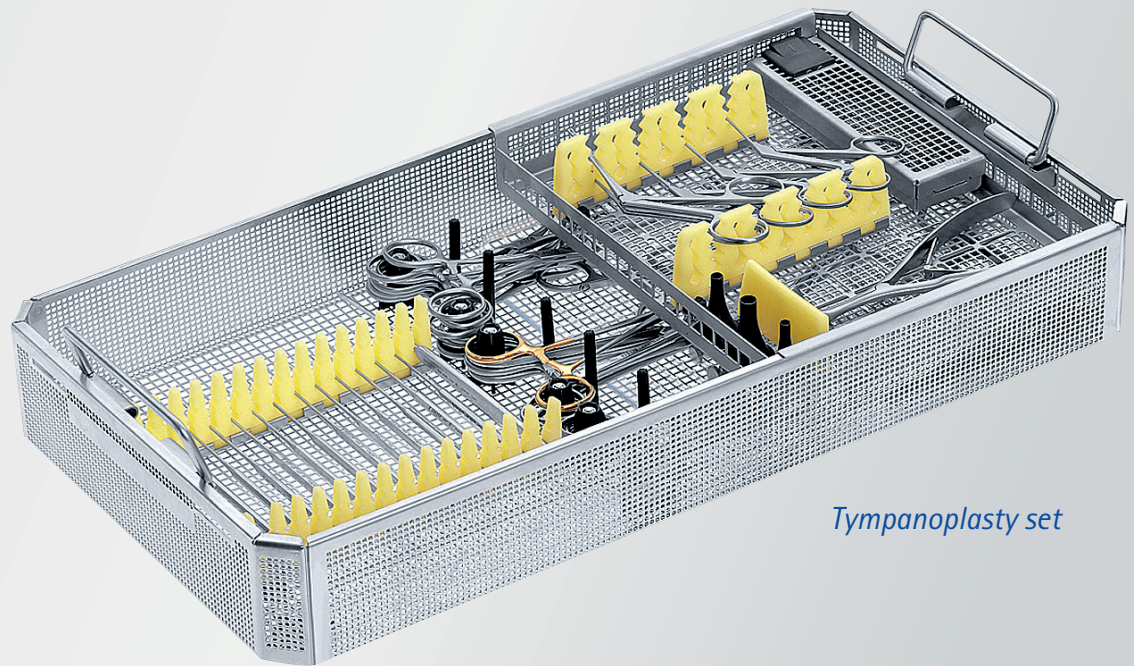

During sterilization, Aesculap's Instrument Organization System is designed for:

- Better sterilant flow between instruments
- Consistent sterilization

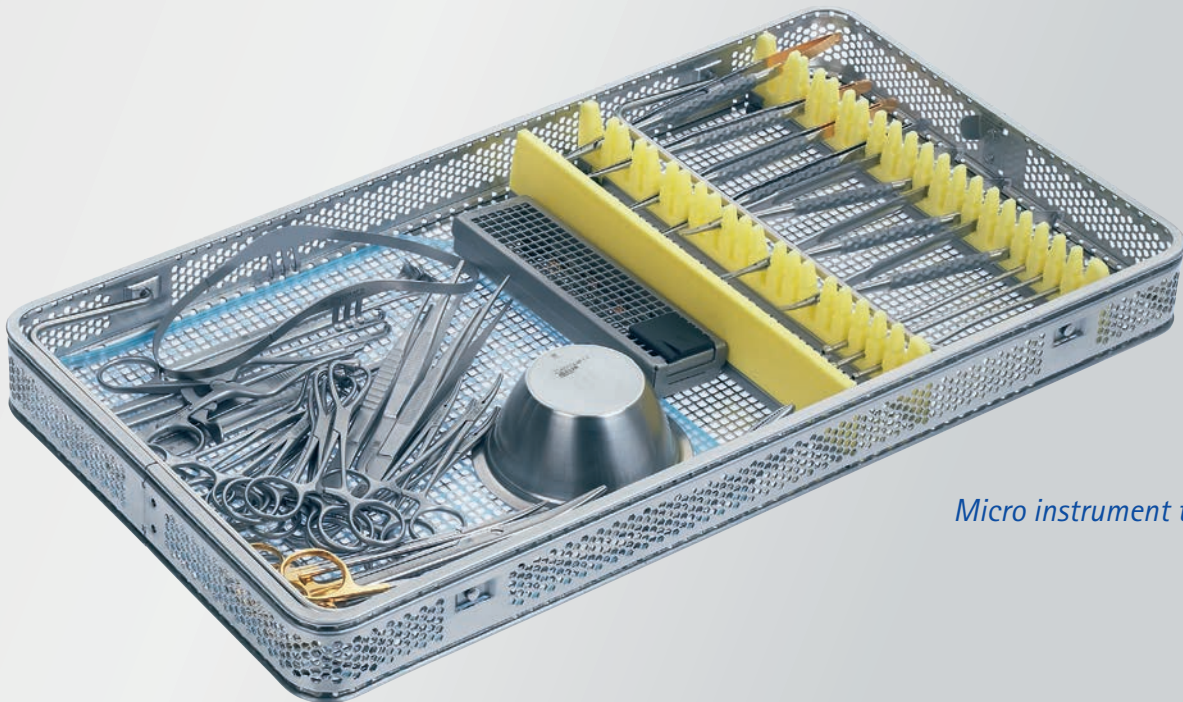

Bone tray accessory

Micro Instrument Organization System Instrument Racks

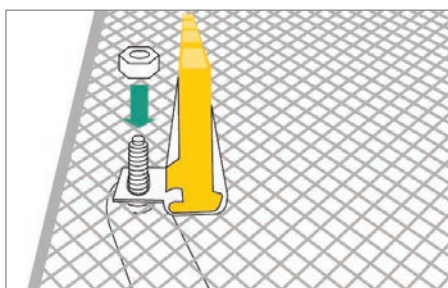

Mounting Instructions

Mounting A for instrument racks to be fixed with screws

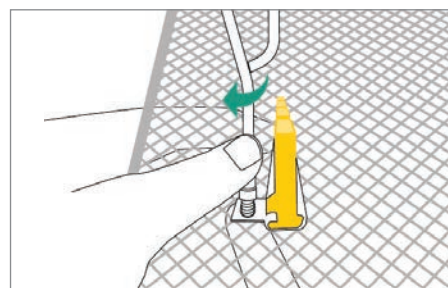

MATERIALS REQUIRED:

- GB459R Toolkit as required
- Instrument holder such as JG341
- AESCULAP baskets (e.g. AESCULAP Aicon® JJ series or JF series)

Place the instrument holder in the required position in the AESCULAP basket, making sure that the holder's fixation lug fit onto the basket's lattice-work correctly. Push the screw through from below and fix it with the nut from above.

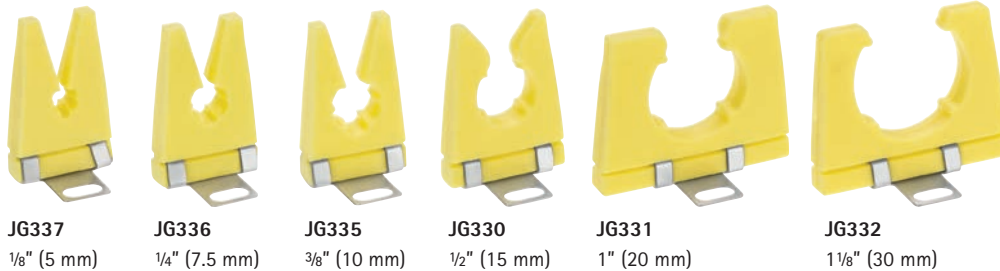

Hold the screw with your finger, put on the socket wrench with the other hand and tighten the nut.

*For all "Type A" mounting items, see Hardware and Tool Kit options on page 43.

Please contact your Aesculap Sales Representative or Customer Resource at (800) 282-9000 for a free consultation in organizing any of your surgical assets in the Aesculap SterilContainer™ System

*For all "Type A" mounting items, see Hardware and Tool Kit options on page 43.

Instrument Organization System

Mounting Type A

For instrument racks with fixation pin:

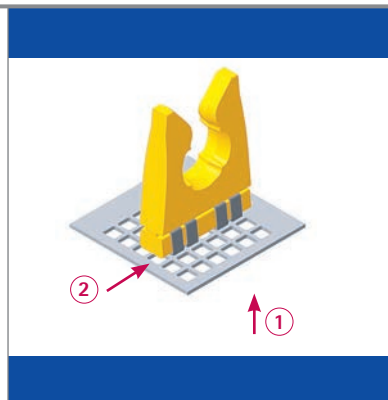

Mounting Type A designed for easy top down assembly of the majority of SterilContainer™ Storage System silicone dividers

- ① Insert fixation pin JG300 in the rack. Install rack with fixation pin in the tray.
- ② Push the fixation pin down, then turn it by 45° using JG302 – Allen screwdriver.

Mounting Type B

For silicone holders with fixation clamps:

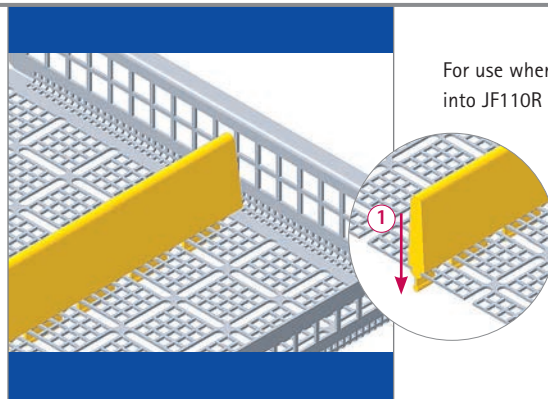

For use with JG330, JG331 and JG332 only

- ① Press fixation clamp JG301R into tray from below.
- ② Slide in silicone holder sideways.

Mounting Type C

For silicone racks in tray inserts:

For use when inserting JG310 into JF110R and JF210R

- ① Pull the silicone rack through the longitudinal slots in the tray.

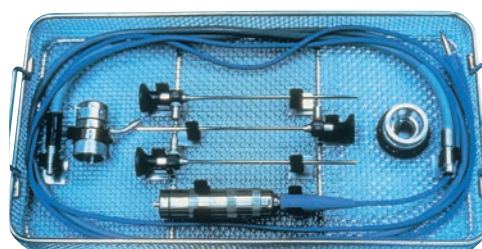

**Mounting Type C can only be used with JF110R and JF210R baskets*

Please contact your Aesculap Sales Representative or Customer Resource at (800) 282-9000 for a free consultation in organizing any of your surgical assets in the Aesculap SterilContainer™ System

for Half-Size Container
Holds 12 straight and curved
osteotomes (example: MB640
and MB650)
10" x 9 7/8" x 2 3/4"
254 x 250 x 70 mm

MD928

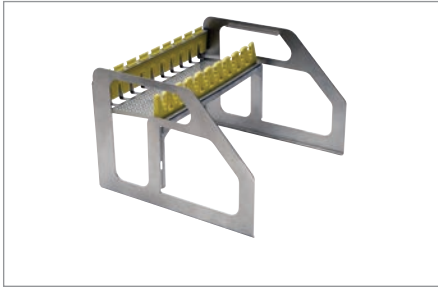

MD928 – Cobb Curette Rack
Holds 10 Cobb curettes
(example: FK581 – FK599R)
9" x 2 1/2" x 14"
230 x 65 x 355 mm

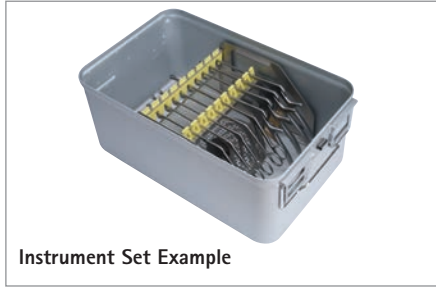

MD929

MD929 – Bruns Curette
Rack
Holds 10 Bruns curettes
(example: MD473 – MD490)
9" x 2 1/2" x 11 1/2"
230 x 65 x 295 mm

Storage Frame for Bone Punches

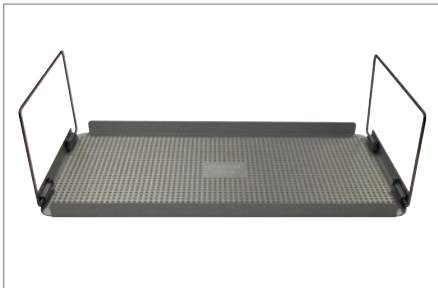

JF120R holds ten instruments.
9½" x 8⅞" x 6⅜"

Instrument Set Example

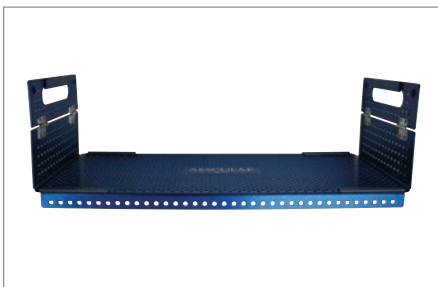

JF120R can be used in the JN744, 8" three-quarter size container. It is designed to be used in a full-size container for longer instruments.

Lifting Platforms

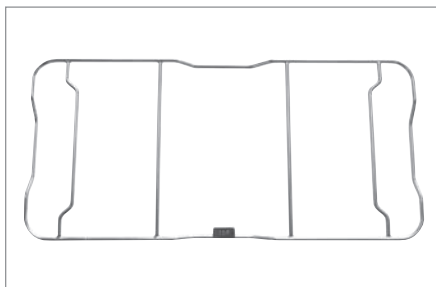

Lifting Platform

Lifting Platform Material Code	Container Height	Handle Height*	Fits Container Codes
US094	4"	2½"	JK/JN 440
