AESCU LAP®

# KERRISON Bone Punches

**Aesculap –  
a tradition of high quality.**

Aesculap has manufactured KERRISON bone punches for over 100 years.

Throughout the world, "Made by Aesculap" is synonymous with high quality and durability.

**Non-detachable  
KERRISON Bone Punch**

**Proven**

Considered a classic for over 100 years. The graceful, slim design and excellent cutting properties are its hallmark.

**From raw materials  
to KERRISON bone punch.**

The high quality of the Aesculap KERRISON bone punches is a result of the long standing experience and quality awareness of our employees.

#### Detachable KERRISON Bone Punch

##### Detachable

Can be disassembled without tools in only 3 steps, for efficient cleaning.

#### KERRISON Noir™ Bone Punch

##### Aesthetic

Detachable, with a special black coating for reduced light reflection.

#### Specialty KERRISON Bone Punches

##### Specialty

Whether curved, bayonet-shaped or laminectomy opening – we provide the solution.

## Skillfully hand-crafted by experts.

In order to meet the high demands of every operation, every single part is manufactured by hand and subsequently checked.

# KERRISON Bone Punches

Non-Detachable - Silver

**Large Jaw Punches**  
offer a 66% wider jaw opening  
compared to standard punches.

<<<< Large Jaw Opening >>>>  
15 mm

< Standard Jaw Opening >  
8 - 12 mm

## Extra-long Version

This 11" punch completes the portfolio. Its extra length offers sufficient reserves for bridging the distance to the application site.

for delicate use only

Punches with a thin footplate are used exclusively for removing small portions of bone and soft tissue.

4

**Large Number**  
for identification of  
jaw width (in mm)  
at a glance.

**Thin Footplate**  
These KERRISON  
punches feature a  
distinctive inner  
golden handle.

 **AESCULAP**   
**FF668R**  
STAINLESS 4 mm / 280 mm

#### Non Detachable

- 40°/90° upbiting/downbiting
- With standard footplate/thin footplate
- Standard/laminectomy punches

## Organization and Protection of Surgical Instruments

Aesculap's Instrument Organization System (IOS) is an advanced system of organizing, storing and protecting your instrument set during transportation and sterilization.

- Special storage rack JF120R for bone punches are available
- Instrument protection increases instrument life & reduces replacement cost
- Instrument protection reduces the cost of repairs & set downtime
- Instruments organized with the Instrument Organization System are guarded against damage from instrument-on-instrument impact during transportation

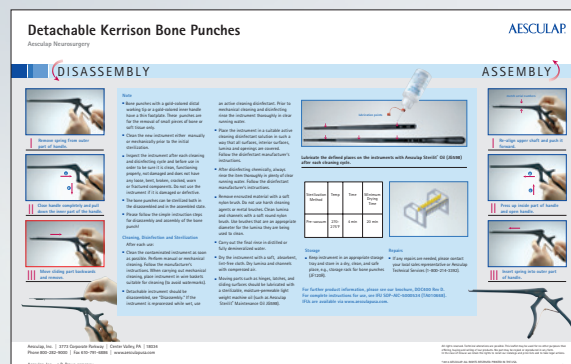

Application example:  
Transsphenoidal hypophysectomy set

## JF120R

**Storage Rack for Bone Punches**  
facilitate firm and easy storage during and after sterilization.

Information on disassembly and reprocessing of the KERRISON bone punches are also available on the KERRISON poster DOC736.

Through collaborative  
excellence we will improve the  
quality of a patient's life and  
meet the needs of the changing  
healthcare environment.
